## PERSONAL STATEMENT

Beautiful, interesting, professional—anyone who creates anything wants it to possess some combination of these attributes. As a Graphic Designer, this triad is a specialty of mine. I have spent years studying and creating thoughtful designs for a variety of projects and people. With a creative personality, a meticulous attention to detail and a diverse skill-set, I seamlessly translate ideas across a variety of mediums and applications. It is through this process that I create art which engages the viewer and communicates ideas effectively.
